DETAILED ACTION

1. Claims 12-15, 17, 24, 26-31, and 33-54 are in the application. Claims 1-11, 16, 18-23, 25, 29, and 32 have been canceled.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 12-15 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Basta et al(5,890,835).

Basta et al discloses a pair of arms 80 that floats in water and is configured to contact a watercraft hull with a surface; the arm is pivotally coupled to a frame 60, 62 that is pivotally coupled to a water lifting system. The configuration of the arm surface is deemed to have been an obvious matter of design choice to one skilled in the art. The material used to make the arm 80 would have been a obvious matter of design choice. The use of a synthetic material would have been a desirable choice to resist the environment effects. The arm includes a passageway at 84 that is not centered along the length of the arm.

Allowable Subject Matter

4. Claims 24, 26-31, and 33-54 allowed.
